## Improve the appearance of your home!

Nothing improves the appearance of an older home like new windows. Whether you're planning to sell your home, or are just sprucing up the place, you can be confident knowing that you're improving the appearance and value of your home, and the neighborhood. In addition to improving your home's appearance, replacing your old windows can also reduce your heating and cooling costs. Much energy is lost by single-paned windows through the glass and through air leaks around loose-fitting components. The best replacement windows will include features such as double thermal pane with argon between the layers, heat reflective or Low-E coatings. This can substantially reduce your heating/cooling bill. Vinyl is water-proof, color-fast, and never needs painting. Modern windows can be cleaned from inside the home – much safer and more convenient, especially for upstairs windows.

Quality  
STANDS BEHIND  
EVERY WINDOW

300 SERIES

# Single /Awning

# Twin Casements

# Triple Casements

Casement windows add an old world appearance to your home, while meeting a high standard of energy efficiency and durability. The heavy duty hardware system secures your window when it is closed and offers

many years of hassle-free operation. Single casement windows hinge on the side and open with a crank.

Our casement and awning windows are available in a variety of styles, including single, stacked, and side-by-side!

Add charm to your home with the triple casement window! This is ideal if you like the design of the casement and need more window space! The triple casement window is designed

where both the left and right sashes operate and the center is a fixed sash. Equal Lite

configuration is where all sashes are equal in size (1/3 - 1/3 - 1/3). Unequal Lite configuration is where the two outside sashes are same size, however the inside sash is larger.

Awning windows are similar to single casements

except they hinge at the top and let you enjoy a fresh breeze in your house even during heavy rain. Graceful styling and high-tech engineering make our awning window a popular choice for contemporary and modern homes.

All windows listed feature:

- 100% grade-A first-generation vinyl.
- Multi-chamber sash create an insulated air chamber.
- LoE high performance insulated glass.
- Constant force system operation.
- Dual weather strip provides energy tight seal.
- Standard sash pivots for easy inside cleaning.
- EdgeTech® Super Spacer helps protect against harmful condensation.
- Triple weather strip at sill area.
- Fold-Away Handle
